

WTRQ3 Wrist Transmitter/ Emergency Pendant

Comprehensive Protection at Home

WTRQ3 is an emergency pendant/wrist transmitter that enables seniors to summon help with one simple press. You can wear WTRQ3 as a neck pendant or a wrist transmitter, with multiple options of necklace/wristbands including black elastic wrist strap, Velcro wrist strap, colored plastic wristband, cotton lanyard, or stainless steel chain lanyard. When pressed, WTRQ3 will immediately trigger an alarm call to monitoring center, significantly increasing response and rescue time. With this device, seniors can move freely around the home, knowing that help is just one button press away.

WTRQ3 requires very low maintenance with auto low battery detection function, offering senior's a peace of mind and reassurance. WTRQ3 is also IPX8 waterproof, allowing it be used anywhere even in the shower. The WTRQ3 is extremely lightweight, users will barely notice until it is needed. WTRQ3 will be seniors' most reliable partner for a carefree and dignified aging.
