TG-16N Outdoor Tag Reader

Comprehensive Protection

TG-16N is an outdoor tag reader that provides you the easiest and quickest way to arm and disarm your home alarm system.

TG-16N is designed to be installed at the entrance of your home for easy convenient access of your security system before entering the house. This device is integrated with NFC labels so you can quickly guard your home with just one simple swipe. No more complicated keypads or cumbersome PIN codes.

TG-16N shows the status of your security system via its dual-color (green and red) LED indicators. It flashes the green light when your security system is armed and the red light when an alarm has occurred or is taking place. The LED light goes off when your security system is disarmed.

TG-16N simplifies the operation of your security system and lets you know the system status at a quick glance. Installing this device at the entrance of your home also alerts possible intruders that your property is under alarm protection.

• **Long Battery Life**

• **Integrates Six Proximity or NFC Tags**

• **IPX5 Weatherproof**

• **Dual-Color LED Indicator**

Features

- Arms / Disarms security system
- Button-free, single scan function
- Integrates six proximity or NFC tags
- Dual-color LED indicator for system mode
- IPX5 waterproof housing
- Sleep mode for power-saving operation
- Tamper protection for unauthorized removal or sabatoge
- Low battery detection

Specifications

Frequency	868 MHz / 433 MHz
Power Source	1.5V, AA Lithium battery x 2
Battery Life	6.5 years*
NFC Protocol	ISO 14443 A/B
Operating Temperature	-10°C to 45°C (14°F to 113°F)
Operating Humidity	Up to 85% non-condensing
Dimensions	125mm x 82.5mm x 23.4mm
