

PRS5-ZW Z-Wave Power Relay Switch

Power a Green and Simple Lifestyle

- Allows users to remotely control lights and appliances
- With embedded terminal wires and splicing connectors to prevent shorts or electrocution
- Doubles as a repeater (optional)

PRS5-ZW is a Z-Wave Power Relay Switch, allowing users to remotely control lights and household electronic appliances from anywhere at any time. As PRS5-ZW is directly connected to power cables, it comes with embedded terminal wires and splicing connectors to prevent shorts and electrocution during installation. When connected to AC power, the PRS5-ZW can also function as a repeater for further extending wireless communication ranges.

PRS5-ZW's small and compact profile provides the flexibility in the places of installing, such as wall switch boxes, ceilings or any other location in users' homes. Integrated with home automation and security systems, PRS5-ZW offers users a convenient way of controlling home appliances for energy-saving and safety purposes. Instantly turning light on/off remotely, programing customized schedules/scenes, or making it appear like someone is at home, PRS5-ZW provides users with great assistance of managing their home environments and safety at ease.
