

KP-160 PG2

Touch-screen Keypad for PowerMaster Alarm Systems

Features that Make a Difference:

- Touch screen panel with icons enables easy and intuitive operation
- Sleek design; wall-mounted or desktop
- Ideal for arming/disarming, initiating emergency, fire and panic alarms, controlling PGM outputs and reviewing system status
- Provides user with feedback on commands
- Easy use by Keypad, proximity tags or RFID cards
- Partition support
- Provides audible and visual entry/exit warnings
- Extended range – eliminates the need for repeaters
- Available in black or white
- Superb value for price
- Alarm system panel can be installed in hidden location hard to find by intruders
- Compatible with PowerMaster control panels family

KP-160 PG2 is a stylish and easy to use two-way wireless user interface for PowerMaster systems. Featuring an attractive design and large graphical touch screen, the KP-160 PG2 keypad replaces traditional keypads and is the perfect solution for users in both residential and small business premises.

Decorative proximity tags enable users to arm/disarm the system, initiate fire and panic alarms and review system status. Allows installers to maximize system security by installing the panel in a location hidden away from intruders.
